Volume 53, Number 1

January-February, 1984

Engl./Russ.

State of the Intracellular Pool of Free Amino Acids in Dehydrated Yeast Organisms - A. T. Novichkova and A. I. Rapoport .....	1	5
3,4-Dichloraniline - A Source of Carbon and Nitrogen for a Mixed Culture of Organisms - É. G. Surovtseva, G. K. Vasil'eva, and A. I. Vol'nova .....	5	10
Effect of Sodium Chloride on the Metabolism of the Yeast <i>Rhodotorula glutinis</i> - M. V. Zalashko, G. A. Salokhina, and T. V. Shamgina .....	10	16
Cyanide-Resistant Respiration of Bacteria and Its Relation to Oversynthesis of Metabolites - S. M. Trutko, A. G. Medentsev, V. P. Korobov, and V. K. Akimenko .....	14	21
Determination of Primary Amines and Protein Using Fluorescamine in Suspensions of Microorganisms - M. N. Poglazova, N. A. Pomoshchnikova, and M. N. Meisel' ....	20	28
Nitrate- and Sulfate-Reducing Microaerophilic Bacteria - A. N. Pylaetdinov, S. A. Abdrashitova, and S. A. Aitkel'dieva .....	24	33
Peculiarities of Sulfate Assimilation by Propionic Acid Bacteria - I. A. Charakhch'yan and L. I. Vorob'eva .....	28	38
Change in the Activity of Certain Enzymes of Flavinogenesis during Culturing of the Fungus <i>Eremothecium ashbyii</i> - L. V. Koltun, G. M. Shavlovskii, V. E. Kashchenko, and V. M. Trach .....	32	43
Nonequivalence of Cells in a <i>Shizosaccharomyces pombe</i> Culture - D. Vrana .....	36	48
Growth and Lipolytic Activity of <i>Rhizopus microsporus</i> Cultured at Different Temperatures - T. F. Zubenko, I. G. Sultanova, and M. Z. Zakirov .....	38	50
Optimization of a Synthetic Culture Medium for <i>Bacillus thuringiensis</i> - L. E. Kuznetsov and M. P. Khovrychev .....	41	54
Limitation of Growth of the Yeast <i>Saccharomyces cerevisiae</i> in a Chemostat System by the Carbon and Nitrogen Sources - A. N. Shkidchenko .....	44	58
Some Properties of the Agglutination Factors of the Yeasts <i>Citeromyces matritensis</i> - A. V. Vorob'ev .....	49	63
Separation of Cells in Yeast Populations according to Their Age by Flotation - V. N. Ivanov, O. S. Kaz'min, S. A. Sedina, and Ya. Ya. Shkop .....	53	68
Utilization of 2-Chlorobenzoic Acid by <i>Pseudomonas cépacia</i> - G. M. Zaitsev and Yu. N. Karasevich .....	59	75
Roquefortin Biosynthesis during Growth of Fungi of the Genus <i>Penicillium</i> - A. G. Kozlovskii and T. A. Reshetilova .....	64	81
New Budding Prosthecate Bacterium <i>Labrys monahos</i> with Radial Cell Symmetry - L. V. Vasil'eva and A. M. Semenov .....	68	85
Systematic Position of Lysine-Producing <i>Brevibacterium flavum</i> - E. I. Kyashnikov, T. M. Nogina, O. A. Nesterenko, L. P. Panchenko, B. V. Rozynov, and T. V. Koronelli. ....	75	93
Ultrastructural Organization of <i>Actinomyces rimosus</i> and <i>Actinomyces violacinereus</i> in Monocultures and in an Association Producing Extracellular Proteases - V. I. Gesheva, N. A. Kostrikina, V. I. Biryuzova, N. S. Landau, and N. S. Egorov ....	79	98
Structure of Basal Bodies of Flagella in <i>Bacillus brevis</i> var. G.-B. P <sup>+</sup> - N. A. Novikova, A. L. Metlina, A. P. Zarubina, and B. F. Poglazov .....	84	103
Ultrastructural Changes in the Yeast <i>Nadsoniella nigra</i> after Prolonged Incubation at Subzero Temperatures - A. A. Imshenetskii, T. M. Kozlova, and S. P. Lyakh .....	88	108
Survival of R, S, and M Variants of <i>Mycobacterium lacticolum</i> under Differing Conditions of Storage - E. S. Mil'ko, Z. A. Arkad'eva, M. N. Pimenova, R. A. Stepanova, and N. S. Egorov .....	92	113

Population Dynamics of <i>Rhizobium leguminosarum</i> on the Roots of Pea Sprouts - N. P. Kirillova, P. A. Kozhevin, and D. G. Zvyagintsev . . . . .	96	117
Nitrogen Fixation in Takyr-Like Soils under Rice - I. K. Chistyakova and T. A. Kalininskaya . . . . .	101	123
Iron- and Manganese-Oxidizing Microorganisms in Grounds in the Northwestern Part of the Indian Ocean and the Red Sea - M. I. Novozhilova and F. S. Berezina . . . . .	106	129
Thermophilic Bacteria of the Hot Springs of Buryatia - G. I. Khraptsova, I. A. Tsaplina, L. M. Seregina, and L. G. Loginova . . . . .	112	137
Cellulose-Decomposing Bacteria and Cellulose-Decomposing Potential in Karelian Lakes - T. M. Timakova and V. I. Romanenko . . . . .	117	142
Communities of Methane-Producing Bacteria from Apsheron Oil Formations - T. N. Nazina . . . . .	122	149
Microbiological Intensification of Oil Oxidation in Biofilters - M. V. Gasanov, S. M. Amirova, L. M. Kirillova, R. M. Zabirova, and L. A. Rukavishnikova . . . . .	128	156

Volume 53, Number 2

March-April, 1984

Absence of Correlation between the Resistance of Bacterial Respiration to Cyanide and the Content of Cytochrome d in These Bacteria - V. K. Akimenko and S. M. Trutko . . . . .	133	181
Calculation of the Minimum Expenditure of Substrates on the Energy Metabolism of Microorganisms - G. I. Skurida, V. A. Mironov, and L. N. Drozdov-Tikhomirov . . . . .	138	187
Metabolism of the Yeast <i>Saccharomyces carlsbergensis</i> under the Action of Light - L. N. Chebotarev and G. V. Shaburova . . . . .	144	195
Extracellular Polysaccharides of Saprotrophic Mycobacteria and Some Principles of Their Formation - N. S. Egorov, N. N. Grechushkina, I. V. Botvinko, A. F. Sviridov, and E. V. Semenova . . . . .	147	199
Reception of the Redox Level of the Electron Transport Chain Component in Cyanobacteria <i>Phormidium uncinatum</i> - V. L. Gabai and A. N. Glagolev . . . . .	151	203
Rehydration Conditions for Dehydrated <i>Saccharomyces cerevisiae</i> Yeast and the Viability of Its Cells - P. B. Zikmanis, S. I. Auzan, R. V. Kruche, M. A. Zikmane, and L. P. Auzinya . . . . .	155	208
Interaction of <i>Pseudomonas</i> and <i>Mycobacterium</i> in a Mixed Culture and Hydrocarbon Oxidation - T. V. Koronelli, T. I. Komarova, and A. V. Ignatchenko . . . . .	160	213
Breakdown of Alkyl Sulfonate by <i>Pseudomonas rathonis</i> - S. S. Stavskaya, L. A. Taranova, T. Yu. Grigor'eva, V. A. Degtyarev, V. T. Pisarev, and M. N. Rotmistrov . . . . .	164	218
Free Intracellular Amino Acids of Oligotrophic Bacteria - T. V. Stepanovich, D. I. Nikitin, and R. A. Barmenkova . . . . .	169	223
Interaction within an Association of Actinomycetes in Connection with the Intensification of Protease Biosynthesis - N. S. Landau, V. I. Gesheva, and N. S. Egorov . . . . .	173	228
Variability of Industrial Producers of Amylase - E. S. Stapchinskene, O. V. Kislukhina, and Yu. F. Vasilyauskas . . . . .	177	232
Cellulolytic Enzymes of <i>Geotrichum candidum</i> - N. A. Tiunova, N. Ya. Kobzeva, N. A. Zagustina, V. I. Maksimov, and A. M. Bezborodov . . . . .	181	237
Selection of an Alkaline Phosphatase-Producing Thermophilic Bacterium of the Genus <i>Thermus</i> - L. A. Egorova and L. G. Loginova . . . . .	186	242
Activity of Enzymes of Formate Dehydrogenase Complex from <i>Citrobacter freundii</i> - S. S. Zatsepin and A. I. Netrusov . . . . .	189	246
Nature of the Brown Pigment and Composition of Phenol Oxidases of <i>Streptomyces galbus</i> - V. D. Kuznetsov, S. N. Filippova, and A. M. Rybakova . . . . .	193	251
Cytobiochemical Features of Methanotrophic Bacteria - N. E. Suzina, V. V. Dmitriev, E. V. Chetina, and B. A. Fikhte . . . . .	198	257

Bacteriocinogeny in Strains of <u>Corynebacterium glutamicum</u> - B. P. Karabekov, S. V. Kazhoyan, M. B. Chitchyan, and F. N. Tkhruni . . . . .	203	261
Morphofunctional Aspects of the Growth of <u>Fusidium coccineum</u> Strains with Different Antibiotic Activity during Submerged Cultivation - Yu. E. Bartoshevich and P. L. Zaslavskaya . . . . .	208	266
Growth Kinetics of Microorganisms with Different Ecological Strategies in Dialysis Culture at Low Specific Growth Rates - A. G. Dorofeev, T. F. Bondarenko, D. G. Zvyagintsev, and N. S. Panikov . . . . .	214	271
Synthesis of Lipids as a Function of the Rate of Growth of Yeast Lipid Producers - N. I. Krylova, I. A. Portnova, and E. G. Dedyukhina . . . . .	218	275
Sporulation and Crystal Formation in <u>Bacillus thuringiensis</u> with Growth Limitation via the Nutrient Sources - Z. V. Sakharova, Yu. N. Ignatenko, M. P. Khovrychev, V. P. Lykov, I. L. Rabotnova, and V. V. Shevtsov . . . . .	221	279
Expression of the Plasmid RP4 Resistance Genes in <u>Escherichia coli</u> Cells Grown under Conditions of Continuous Culturing - A. E. Filonov, E. V. Kozlova, and A. M. Boronin . . . . .	227	285
Intergeneric Hybridization of the Actinomycetes <u>Streptoverticillium</u> <u>mycoheptenicum</u> and <u>Streptomyces coelicolor</u> - I. K. Lapina, A. A. Shevchenko, A. S. Sten'ko, B. P. Matselyukh, and R. A. Zhukova . . . . .	231	290
Effect of Drying Out and Low Temperatures on Mesosphere Strains of <u>Aspergillus niger</u> and <u>Penicillium chrysogenum</u> - A. A. Imshenetskiy, S. V. Lysenko, and N. S. Detina . . . . .	237	296
Structural Organization of the Cell Walls in Yeasts of the Genus <u>Candida</u> - G. N. Egorenkova and A. P. Belov . . . . .	241	300
Taxonomic Characteristics of the Yeast <u>Pichia guilliermondii</u> - E. I. Kvasnikov, V. P. Zharova, and I. F. Shchelokova . . . . .	245	305
Effect of Metal Oxides on Clover-Rhizobium Symbiosis - Z. M. Yakovleva . . . . .	248	308
Relationship between the Purple Bacteria Belonging to the Genus <u>Rhodospseudomonas</u> - T. P. Turova and T. L. Ivanova . . . . .	252	313
Disintegration of Cells of the Hydrogen-Oxidizing Bacterium <u>Alcaligenes eutrophus</u> - N. G. Lopatina . . . . .	256	318
Green Sulfur Bacteria Inhabiting Shallow Saline Water Bodies - N. N. Puchkova . . . . .	261	324
Distribution and Activity of Microorganisms in Leaching of Nonferrous Metals at the Nikolaev Deposit - G. I. Karavaiko, B. D. Khalezov, V. V. Abakumov, R. S. Golovacheva, T. V. Kovalenko, V. P. Piskunov, and L. N. Skripchenko . . . . .	265	329
Separation of <u>Lactobacterium acidophilum</u> from the Culture Liquid - D. N. Kozachuk, L. I. Globa, A. S. Gordienko, and N. Ya. Krasnobrizhii . . . . .	270	336

Volume 53, Number 3

May-June, 1984

Regulation of the Biosynthesis of Secondary Metabolites in <u>Streptomyces galbus</u> - B. D. Kuznetsov, S. N. Filippova, T. I. Orlova, and A. M. Rybakova . . . . .	275	357
Uptake of [ <sup>14</sup> C]Dicarboxylic Acids by Bacteria from the Family Halobacteriaceae - V. K. Plakunov, I. S. Zvyagintseva, and A. L. Tarasov . . . . .	281	364
Free Mycolic Acids in the Cells of Some Coryneform and Nocardialike Bacteria - T. V. Koronelli, B. V. Roznov, E. I. Kvasnikov, T. M. Nogina, and O. A. Nesterenko . . . . .	288	371
Utilization of 4-Chlorobenzoic and 2,4-Dichlorobenzoic Acids by a Mixed Culture of Microorganisms - Yu. N. Karasevich and G. M. Zaitsev . . . . .	290	374

Analysis of Changes in the Electrophysical and Morphometric Parameters during the Growth and Sporulation of <i>Bacillus thuringiensis</i> — V. N. Brezgunov, V. D. Bunin, V. G. Popov, N. V. Ivanov, V. A. Samoilenko, V. M. Fomchenkov, and V. V. Shevtsov . . . . .	297	381
Selection of <i>Streptomyces spheroides</i> Producing Extracellular Proteases with Fibrinolytic Activity — N. S. Egorov, M. A. Al-Nuri, and N. I. Pryanishnikova . . . . .	302	387
Growth of <i>Rhodopseudomonas capsulata</i> and Its Synthesis of Hydrogenase under Conditions of Continuous Culturing — A. A. Tsygankov, I. N. Gogotov, and E. N. Kondrat'eva . . . . .	306	392
Proteolytic Activity of Bacteria Isolated from the Surface of Parchment Manuscripts and Handmade Leather Articles — Yu. P. Petushkova, T. M. Shemyakina, and T. A. Cherdyntseva . . . . .	313	399
Effect of Substrate Concentration on Growth of <i>Debaryomyces formicarius</i> in Continuous Culture — N. S. Panikov . . . . .	318	404
Calculation of the Optimum Economic Characteristics of Growth and Monomer Excretion in a Bacterial Culture — G. I. Skurida, V. A. Mironov, and L. N. Drozdov-Tikhomirov . . . . .	325	412
Participation of the Chemotaxis System in Regulation of Cell Division in <i>Escherichia coli</i> — M. Yu. Sherman and N. V. Vorob'eva . . . . .	332	419
Emulsifying Activity of Yeast Grown on Normal Alkane — V. I. Illarionova, N. V. Shishkanova, D. Haferburg, and T. V. Finogenova . . . . .	336	423
Variability in <i>Bacillus thuringiensis</i> under Various Growth Conditions — T. P. Blokhina, Z. V. Sakharova, Yu. N. Ignatenko, I. L. Rabotnova, and Ya. I. Rautenshtein . . . . .	340	427
Effect of Different Methods of Cell Disintegration on Orientation of Membrane Vesicles in <i>Escherichia coli</i> — N. I. Mikhaleva, S. A. Gulevskaya, M. A. Nesmeyanova, N. E. Suzina, and B. A. Fikhte . . . . .	345	432
Effect of Cultivation Conditions on Alkaloid Biosynthesis by <i>Penicillium gorlenkocanum</i> — L. N. Stefanova-Avramova and A. G. Kozlovskii . . . . .	351	437
Effect of Methoxychlor on the Soil Microflora and Its Transformation by Microorganisms — A. V. Polyakova, B. P. Baskunov, and L. A. Golovleva . . . . .	356	442
Spore Formation in <i>Bacillus polymyxa</i> during Inhibition of Polymyxin Biosynthesis — M. V. Nefelova, G. N. Ermakova, and N. S. Egorov . . . . .	363	450
Ultrastructure of Spores and Crystals in Various Serotypes of <i>Bacillus thuringiensis</i> — T. A. Smirnova, A. M. Mikhailov, V. S. Tyurin, and R. R. Azizbekyan . . . . .	367	455
Fine Structure of Methane-Producing Bacteria Isolated from an Oil Deposit — A. Ya. Obratsova, E. N. Ratner, S. S. Belyaev, and M. V. Ivanov . . . . .	374	463
Ultrastructure of Membrane Apparatus of <i>Anabaena variabilis</i> FD — A. V. Pinevich and K. A. Mamkaeva . . . . .	379	466
Effect of the Plasmids Belonging to Different Incompatibility Groups on the Growth of Bacteriophages Specific for <i>Pseudomonas aeruginosa</i> and <i>Pseudomonas putida</i> — L. A. Kulakov, V. N. Mazepa, and A. M. Boronin . . . . .	384	471
Antigenic Kinship of Large and Small Phages of <i>Bacillus mycoides</i> Studied by Immune Electron Microscopy — A. S. Tikhonenko, N. N. Belyaeva, and A. F. Kretova . . . . .	389	476
Conditions of Occurrence of Heat Stress in <i>Pseudomonas geniculata</i> — V. I. Elisashvili and M. V. Soshnikova . . . . .	395	483
Effect of Dehydration on Survival, Morphology, and Ultrastructure of the Conidia of Atmospheric and Collection Strains of <i>Aspergillus niger</i> and <i>Penicillium chrysogenum</i> — A. A. Imshenetskii, S. V. Lysenko, T. M. Kozlova, and N. S. Demina . . . . .	400	489

Incorporation of a Radioactive Label in <i>Escherichia coli</i> Cells — V. P. Shevchenko, V. N. Nechaev, O. B. Kuznetsova, and N. F. Myasoedov. . . . .	405	495
Pyrolytic Mass Spectrometry as a Method of Identifying Bacteria Dominating in Complexes of Soil Microflora — L. V. Kravchenko, A. P. Fomicheva, and O. A. Berestetskii. . . . .	409	500
Quantitative Description of the Dynamics of Rhizobia in Soils — M. B. Panchishkina, P. A. Kozhevich, and D. G. Zvyagintsev . . . . .	415	508
Systematics of Coryneform Bacteria from a Fresh-Water Body — E. V. Monakhova, I. V. Mikheeva, and E. L. Golovlev. . . . .	419	512

## Volume 53, Number 4

July-August, 1984

Biological Activity and Physiological-Biochemical Properties of Phosphate-Dissolving Bacteria— Yu. S. Babenko, G. I. Tyrygina, E. F. Grigor'ev, L. M. Dolgikh, and T. I. Borisova . . . . .	427	533
Biosynthesis of Protein and Reserve Substances in Yeast Growing on Different Substrates under Conditions of Limitation by Sources of Mineral Nutrition — I. T. Ermakova, O. F. Mel'nikova, and R. D. Mandeva . . . . .	433	540
Exopolysaccharides Produced by <i>Mycobacterium flavum</i> — L. V. Kosenko and N. N. Mal'tseva . . . . .	440	547
Effect of Emulsifiers Produced by Yeast Cells That Multiply on Media Containing n-Alkanes on Their Growth and Ultrastructural Organization— N. V. Shishkanova, V. I. Illarionova, S. A. Gulevskaya, and T. V. Finogenova . . . . .	444	551
Role of Carbohydrate-Protein Recognition during Attachment of <i>Bdellovibrio</i> to Cells of Host Bacteria — N. A. Chemeris, A. V. Afinogenova, and T. S. Tsarikaeva. . . . .	449	556
Products of Metabolism of an Elective Culture of Anaerobic Thermophilic Cellulose Bacteria — L. A. Egorova, N. M. Dul'tseva, V. F. Panova, G. S. Poyarkova, and N. I. Grigorov . . . . .	452	559
Intracellular and Extracellular Ribonucleases of <i>Bacillus intermedius</i> — F. R. Sharipova, S. V. Filatova, V. G. Vinter, and I. B. Leshchinskaya . . . . .	456	563
Influence of Cations on Exoprotease Synthesis and Sporogenesis in <i>Bacillus licheniformis</i> — N. S. Egorov, S. N. Vybornykh, Zh. K. Loriya, V. D. Samuilov, and Z. Fishinger . . . . .	461	568
Comparative Study of Proteolytic Enzymes Produced by <i>Streptomyces spheroides</i> and Its Mutant — M. A. Al-Nuri, N. I. Pryanishnikova, and N. S. Egorov . . . . .	465	572
Collagenolytic Activity of Bacteria of the Genus <i>Bacillus</i> , Isolated from Parchment and Leather — Yu. P. Petushkova, T. M. Shemyakina, and T. A. Cherdyntseva . . . . .	469	577
Conditions Affecting Growth of <i>Clostridium felsineum</i> — N. P. Avrova and Yu. M. Voznaykovskaya . . . . .	471	580
Rate of Endogenous Respiration as an Indicator of Maintenance Energy in a Chemostat Culture of <i>Debaryomyces formicarius</i> — N. S. Panikov . . . . .	476	586
Growth and Biotin Synthesis by <i>Sporobolomyces pararoseus</i> and <i>Rhizopus delemar</i> under Various Limitations — E. A. Altukhova, L. I. Vorob'eva, and M. P. Khovrychev . . . . .	483	595
Effect of Conditions of Inoculum Nutrition on Growth Rate and Economic Coefficient in a <i>Candida utilis</i> Batch Culture — E. M. Shul'govskaya and I. L. Rabotnova . . . . .	487	600
Growth of Soil Bacteria in Presence of Martian Soil Analogs, Carbon Dioxide, and Hydrogen Peroxide — A. A. Imshenetskii, B. G. Murzakov, M. D. Evdokimova, and I. K. Dorofeeva . . . . .	491	605
Influence of the pH of the Medium on Biomass Composition in <i>Candida valida</i> — T. I. Chistyakova, É. G. Dedyukhina, V. Ya. Il'chenko, and V. K. Eroshin . . . . .	494	609
Growth and Biosynthesis of Cellulases by <i>Aspergillus terreus</i> — I. I. Ivanova . . . . .	499	615
Oxidation of Alcohols by the Yeast <i>Candida guilliermondii</i> , Cultured on Hexadecanol — V. I. Krauzova, G. N. Komarova, A. P. Il'chenko, and S. A. Gulevskaya . . . . .	504	621
Composition of the Lipids in <i>Fusarium sambucinum</i> Grown in a Fermenter on Media with Various Sources of Carbon — N. R. Ievleva and L. M. Bragintseva . . . . .	510	628
Lipids of <i>Methanosarcina vacuolata</i> and <i>Methanococcus halophilus</i> — G. A. Osipov, E. A. Shabanova, O. V. Morozov, G. I. El'-Registan, A. N. Kozlova, and T. N. Zhilina . . . . .	514	633

Comparative Study of Plasmids Controlling the Biodegradation of Naphthalene by a Culture of <i>Pseudomonas</i> - V. V. Kochetkov and A. M. Boronin . . . . .	519	639
Bacteriophages of Methanotrophic and Gas-Oxidizing Bacteria Isolated from Fish - F. M. Tyutikov, V. V. Esipova, B. A. Rebentish, I. A. Bespalova, N. I. Aleksandrushkina, V. F. Gal'chenko, and A. S. Tikhonenko . . . . .	524	645
Antigenic Structure of Cyanobacteria in the Genus <i>Synechococcus</i> in Relation to Their Systematics - S. Ya. Koz'yakov and M. I. Rakhman . . . . .	530	651
Electron-Microscopic Study of Yeasts in a State of Anabiosis and Reactivated from This State - É. J. Ventina, L. A. Saulite, A. I. Rapoport, and M. E. Beker . . . . .	536	658
A Method for More Accurate Quantitative Determination of Soil Microorganisms - D. G. Zvyagintsev, S. A. Lukin, G. A. Lisichkina, and P. A. Kozhevnikov . . . . .	541	665
Effect of Lime and Mineral Fertilizers on the Microbial System of Soddy-Podzolic Soil - V. S. Guzev, A. V. Kurakov, N. G. Bondarenko, and T. G. Mirchink . . . . .	545	669
Numbers and Distributional Characteristics of the Bacteria in Some Collector Channels of Northern Karakalpakia - N. S. Sagidullaev . . . . .	551	676
Properties of Species Composition of Hydrocarbon-Oxidizing Rhodococci from Stratal Water in the Perm Kama River Area - M. V. Berdichevskaya, I. B. Ivshina, O. A. Nesterenko, and V. P. Shekhovtsov . . . . .	555	681
Aggregated State of Lake Bacterioplankton - G. A. Inkina and A. P. Ostapenya . . . . .	560	686
Microbiological Characteristics of Bottom Sediments in the Mouth Areas of Large Rivers of Northern Baikal - V. N. Maksimov, A. R. Rudykh, and É. A. Maksimova . . . . .	564	690
Species Composition and Distribution of Oligocarbophilic Bacteria in Karst Lakes - N. A. Lapteva . . . . .	568	695

## Volume 53, Number 5

## September-October, 1984

Growth of Hydrogen-Oxidizing Bacteria and Carboxydobacteria Studied during Their Combined Culturing - T. G. Volova, G. N. Stasishina, and G. E. Kasaeva . . . . .	575	709
Qualitative Composition of the Cytochrome System of <i>Candida guilliermondii</i> Grown on Hexadecanol - A. P. Il'chenko and V. I. Krauzova . . . . .	579	714
Assimilation of Acetate by <i>Ectothiorhodospira shaposhnikovii</i> in the Dark under Anaerobic Conditions - E. N. Krasil'nikova and E. N. Kondrat'eva . . . . .	583	719
Growth of Methanotrophic Bacteria in the Presence of Methanol - V. F. Gal'chenko, B. B. Namsaraev, Yu. N. Mshenskii, A. I. Nesterov, and M. V. Ivanov . . . . .	588	724
Survival of Bacteria in the "Artificial Mars" Apparatus - A. A. Imshenetskii, B. G. Murzakov, M. D. Evdokimova, and I. K. Dorofeeva . . . . .	594	731
<i>Escherichia coli</i> Batch Cultures with Substrate Addition under Different Aeration Conditions - G. V. Smirnova and O. N. Oktyabr'skii . . . . .	601	738
Changes in Periplasmic Space of Luminescent Bacteria as a Function of Luminescence Intensity - M. V. Sal'nikov, E. S. Vysotskii, V. V. Zavoruev, and V. V. Mezhevikin . . . . .	606	744
Isolation, Cultivation, and Characteristics of <i>Macromonas bipunctata</i> - G. A. Dubinina and M. Yu. Grabovich . . . . .	610	748
Morphology of the Thermophilic Acetate Methane Bacterium <i>Methanothermobacter thermoacetophila</i> sp. nov. - A. N. Nozhevnikova and V. I. Chudina . . . . .	618	756
Role of Cytoplasmic Mutations in Morphological Variability of <i>Candida scottii</i> - V. A. Trubchaninov and T. N. Semushina . . . . .	624	761
Natural Variability of <i>Streptomyces spheroides</i> , a Producer of Extracellular Proteolytic Enzymes Possessing Fibrinolytic Activity - N. I. Pryanishnikova, M. A. Al'-Nuri, R. R. Aslanyan, and N. S. Egorov . . . . .	631	768
Effect of Cyclic Changes in pH and pO <sub>2</sub> on a Chemostat Culture of <i>Candida utilis</i> - D. P. Sokolov, S. A. Lirova, A. A. Senyushkin, and I. L. Rabotnova . . . . .	635	772
<i>Methylovarius</i> gen. nov., a New Genus - V. A. Romanovskaya . . . . .	640	777
Characteristics of Formate-Assimilating Methane Bacteria and Description of <i>Methanobacterium thermoformicicum</i> sp. nov. - T. N. Zhilina and S. A. Ilarionov . . . . .	647	785

Mechanism of the Reaction of <i>Hansenula polymorpha</i> to the Pulsed Addition of a Limiting Substrate — L. P. Dudina and V. K. Eroshin . . . . .	652	791
Effect of Chloramphenicol and Actinomycin D on Biosynthesis of Extracellular Alkaline RNase by <i>Bacillus intermedius</i> — L. V. Znamenskaya, E. R. Romakhina, G. I. Kleiner, and I. B. Leshchinskaya . . . . .	657	796
Biosynthesis of Polyols by the Yeast <i>Candida guilliermondii</i> Grown in Media with Different Carbon Sources — I. T. Ermakova, G. V. Lenskikh, T. A. Gaidenko, T. N. Medvedeva, E. G. Litvinova, and A. V. Korpachev . . . . .	663	803
Comparative Analysis of Polypeptide Fractions and Its Comparison with the Antigenic Composition in Cyanobacteria of the Genus <i>Synechococcus</i> — S. Ya. Koz'yakov, M. I. Rakhman, and G. V. Turkevich . . . . .	668	809
Influence of Cycloheximide and Actinomycin D on the Content of Phospholipids and Neutral Lipids of <i>Cunninghamella japonica</i> — M. V. Mikhailova, E. P. Feofilova, E. G. Rozantsev, G. V. Arkhipova, and E. A. Shirokova . . . . .	675	816
Accumulation of Phosphate and Glucose by <i>Pseudomonas</i> Cultures depending on Their Resistance to Arsenic — B. N. Mynbaeva, L. A. Okorokov, S. A. Abdrashitova, and A. N. Ilyaletdinov . . . . .	681	822
Fatty Acid Composition of the Lipids of Fungi of the Genus <i>Aspergillus</i> Cultured on Media with Various Nitrogen Sources — I. G. Kolesnikova and G. V. Tolstikova . . . . .	685	826
Measures for Increasing the Numbers of Nodule Bacteria in Soil — T. E. Limar', L. M. Polyanskaya, P. A. Kozhevnikov, and D. G. Zvyagintsev . . . . .	688	830
Precipitation of Calcium Carbonate in the Presence of Cyanobacteria — V. K. Nekrasova, L. M. Gerasimenko, and A. K. Romanova . . . . .	691	833
Distribution and Species Composition of Methane-Oxidizing Bacteria in Lake Waters — A. I. Saralov, I. N. Krylova, E. E. Saralova, and S. I. Kuznetsov . . . . .	695	837
The Aerobic Microflora of an Oil Field and Its Ability to Destroy Petroleum — S. N. Gorlatov and S. S. Belyaev . . . . .	701	843
Use of Fluorescamin for Determining the Numbers of Microorganisms in Sea Water by the Epifluorescence Method — M. N. Poglazov and I. N. Mitskevich . . . . .	707	850

## Volume 53, Number 6

November-December, 1984

Levels of Carbon Dioxide Assimilation in Bacteria with Different Pathways of C <sub>1</sub> -Metabolism — N. V. Doronina and Yu. A. Trotsenko . . . . .	715	885
Regulators of Differentiation Synthesized by <i>Streptomyces cyaneofuscatus</i> — L. N. Anisova, I. N. Blinova, O. V. Efremenkova, G. M. Smirnova, and A. S. Khokhlov . . . . .	719	890
NADH-Dependent Luminescence and Efficiency of Luminescent Systems in Different Species of Marine Bacteria — N. A. Baranova, V. S. Danilov, and N. S. Egorov . . . . .	724	896
Oxidase of Higher Alcohols in the Yeast <i>Torulopsis candida</i> Grown on Hexadecane — A. P. Il'chenko . . . . .	730	903
Regulation of the Cometabolism of Hydrocarbon Substrates in Methane-Utilizing Bacteria — I. G. Sokolov, V. A. Romanovskaya, T. P. Krishtab, and Yu. R. Malashenko . . . . .	733	907
Relationship of DNA Replication and Frequency of Cell Division in a Microbial Population to the Rate of Cell Growth — L. N. Drozdov-Tikhomirov and A. V. Dorodnov . . . . .	739	914
Growth and Metabolism of Microscopic Fungi at Extremely Low Humidity — A. A. Imshenetskii, B. G. Murzakov, L. A. Kuzurina, and V. M. Yakshina . . . . .	743	918
Dynamics of the Development of the Response to Thermal Stress in Yeasts during Continuous Culturing — V. A. Kalyuzhin, E. V. Evdokimov, and G. F. Plekhanov . . . . .	748	923

Change in $pO_2$ in Response to a Pulse Addition of the Limiting Substrate to a Chemostat Culture of <i>Hansenula polymorpha</i> — L. P. Dudina. . . .	752	928
Change in Lipids and Their Fatty Acid Composition in Batch Culturing of Luminescent Bacteria — G. S. Kalacheva and E. S. Vysotskii. . . .	756	932
Fatty Acid Composition of Fungi of the Genus <i>Aspergillus</i> in Their Growth on Mineral Media with Various Carbon Sources — I. G. Kolesnikova and G. V. Tolstikova . . . . .	761	938
Composition of Regulators of Bacterial Autolysis — A. K. Bandoyan, O. V. Kisluhkina, and K. A. Kalunyants . . . . .	764	942
Acid-Tolerant Forms of Yeast Grown Experimentally on Wood Hydrolysate I. L. Rabotnova, T. N. Semushina, I. N. Pozmogova, and N. I. Monakhova . . . . .	769	947
Industrial Tests of Polyploid <i>Candida utilis</i> Yeasts — N. D. Nikolaeva, G. M. Zhukova, and G. P. Ashikhmina. . . . .	771	950
A New Species of Moderately Halophilic Purple Bacterium <i>Rhodospirillum mediosalinum</i> sp. nov. — E. I. Kompantseva and V. M. Gorlenko. . . .	775	954
Growth of Spore-Forming, Sulfate-Reducing Bacteria on the Surface of Agarized Media, and the Morphology of Their Colonies — M. Yu. Sokolov, V. V. Krivenko, and V. I. Duda . . . . .	782	962
An Oligosporogenic Mutant of <i>Bacillus brevis</i> — A. P. Zarubina, A. N. Vypiyach, R. R. Aslanyan, and N. S. Egorov . . . . .	789	970
Role of Microorganisms and Some Physicochemical Factors of the Medium in Quartz Destruction — G. N. Karavaiko, N. P. Belkanova, V. A. Eroshchev-Shak, and Z. A. Avakyan . . . . .	795	976
Distribution of Cellulose-Decomposing Microorganisms in Bottom Sediments of the Indian Ocean — B. B. Namsaraev . . . . .	801	982
A Modification of Sorokin's Method for Proportional Determination of Bacterial Chemosynthesis and Organotrophic $CO_2$ Assimilation in Lakes — A. I. Saralov, I. N. Krylova, and S. I. Kuznetsov. . . .	808	989
Cyanobacteria in an Artificial Association with Tobacco Callus Tissue — O. I. Baulina, M. N. Agafodorova, T. G. Korzhenevskaya, M. V. Gusev, and R. G. Butenko . . . . .	815	997
Transformation of the Herbicide Methazole by Pure Cultures of Soil Microorganisms — I. A. Kuznetsova, Yu. V. Kruglov, and Yu. A. Baskakov . . . . .	821	1003
Amylolytic Activity of Soil Bacilli Related to <i>Bacillus subtilis</i> — G. S. Stukalin, Yu. E. Kozlovskii, Yu. F. Vasilyauskas, and A. A. Prozorov . . . . .	825	1007
Stimulation and Elimination of Nodule Bacteria in Soil after the Introduction of an Actinomycete and Chitin — L. M. Polyanskaya, P. A. Kozhevin, and D. G. Zvyagintsev . . . . .	830	1012
Spectrofluorimetric Analysis of <i>Escherichia coli</i> during the Process of Storage in Physiological Solution — E. K. Roshchina, O. V. Dobrolezh, and L. N. Petrov . . . . .	833	1016
